The Main Technology Performance

| Item                             | Parameter                                         |
|----------------------------------|---------------------------------------------------|
| Continuous Rating<br>Voltage Max | 250A<br>300V AC/48V DC                            |
| Mounting Holes Accepts           | Accepts #10 (M5) Screws                           |
| Number of Terminal Studs         | 4                                                 |
| Number of Screw Terminals        | 6                                                 |
| Terminal Type                    | 3/8" ' (M10) Stud                                 |
| Base Material                    | UL94-V0 Rated, Glass Reinforced<br>Thermoplastics |
| Bus Material                     | Nickel Plated Brass                               |

|        |      |         |       |     |                 |                                                                                         |
